

Korean Culture Story Tour

A Journey of Enthralling Exploration and Unique Storytelling

- The Korean Culture Story Tour is a program that allows participants to directly experience Korean culture through enjoyable tours stimulating all senses with food, sights, and activities
- The tour, visiting distinctive Korean regions like Andong, Mokpo, and Yeosu has already gained acclaim as 'the most Korean program' among the spouses of foreign ambassadors and expatriates in Korea. This 100% field-based, customized program is flexibly conducted to meet the diverse needs and perspectives of participants from all walks of life and age groups.
- The Korean Culture Story Tour is a customized program where the specific schedule is developed through prior consultation and planning with the requesting team, group, or organization.

All programs are designed to offer 'enjoyable experiences' and 'special encounters', allowing participants to discover Korean society and culture through enriching stories.

For example, specific themes like Korea's nature, cities, history, traditional culture, and arts are selected, along with preferred regions such as Gyeonggi, Gangwon, Gyeongsang, Jeolla, Chungcheong, and Jeju. Taking into account the gender, age, and the interests of the team/group/organization members, MariaK Global proposes and finalizes a customized program and schedule after consultation.

Experience the real Korea and meet its people through the Korean Culture Story Tour.

Feedbacks from participants of the customized tour program by MariaK Global

“**Most Korean and inspiring trip I have ever experienced.**

I had a fantastic three-day exploration of Andong with a Korean etiquette expert. Listening to her family history in Gunja Village, her ancestral home, felt like a journey through time. No other tour experience could be more special than this. Highly recommend this.

“**Exceptionally high-quality, well-designed tour**

This tour was filled with depth and enjoyment. It was the best time I experienced in Korea as an expatriate family. I am so grateful to the dedicated staffs of MariaK Global for their efforts. They were all very kind and supportive.

“**Lots of laughs!**

We loved our K-pop dance instructor, she made the whole experience so memorable! Lots of laughs, so everyone forgot to be shy.

“**Heartwarming experience**

The best part of this trip was the time spent resting on the wooden bench in front of a small shop in a rural village. I truly enjoyed the warmth of the Korean countryside, taking photos with the local grandmothers and sharing snacks with them. Love them!

“It was a wonderful trip!

Everything in Yeosu was amazing but the food is the best for me. Thank you to everyone who prepared such an amazing tour for us. Everybody we met was sweet and helpful :) Yeosu has become my number one city in Korea.

“Highly recommend

I highly recommend it to foreigners in Korea. In fact, even my Korean partner was deeply impressed, so it's something Koreans shouldn't miss either.

“Experienced the real Korea and its people

I didn't know Andong was such a beautiful and historic place. It was a tour that allowed me to experience the real Korea and its people for the first time during my more than four years of living in Korea.
